JONATHAN SHAW

FUN
CITY
STUDIO

Jonathan is well known in professional tattoo circles as one of the primary innovators of the bold, graphic, abstract, "tribal style" designs. For many years an internationally travelling tattooer, he now divides his time between his private, by appointment only, studios in New York City and Hollywood, California. His one of a kind, highly stylized custom and freehand creations are constantly setting new trends in tattooing.

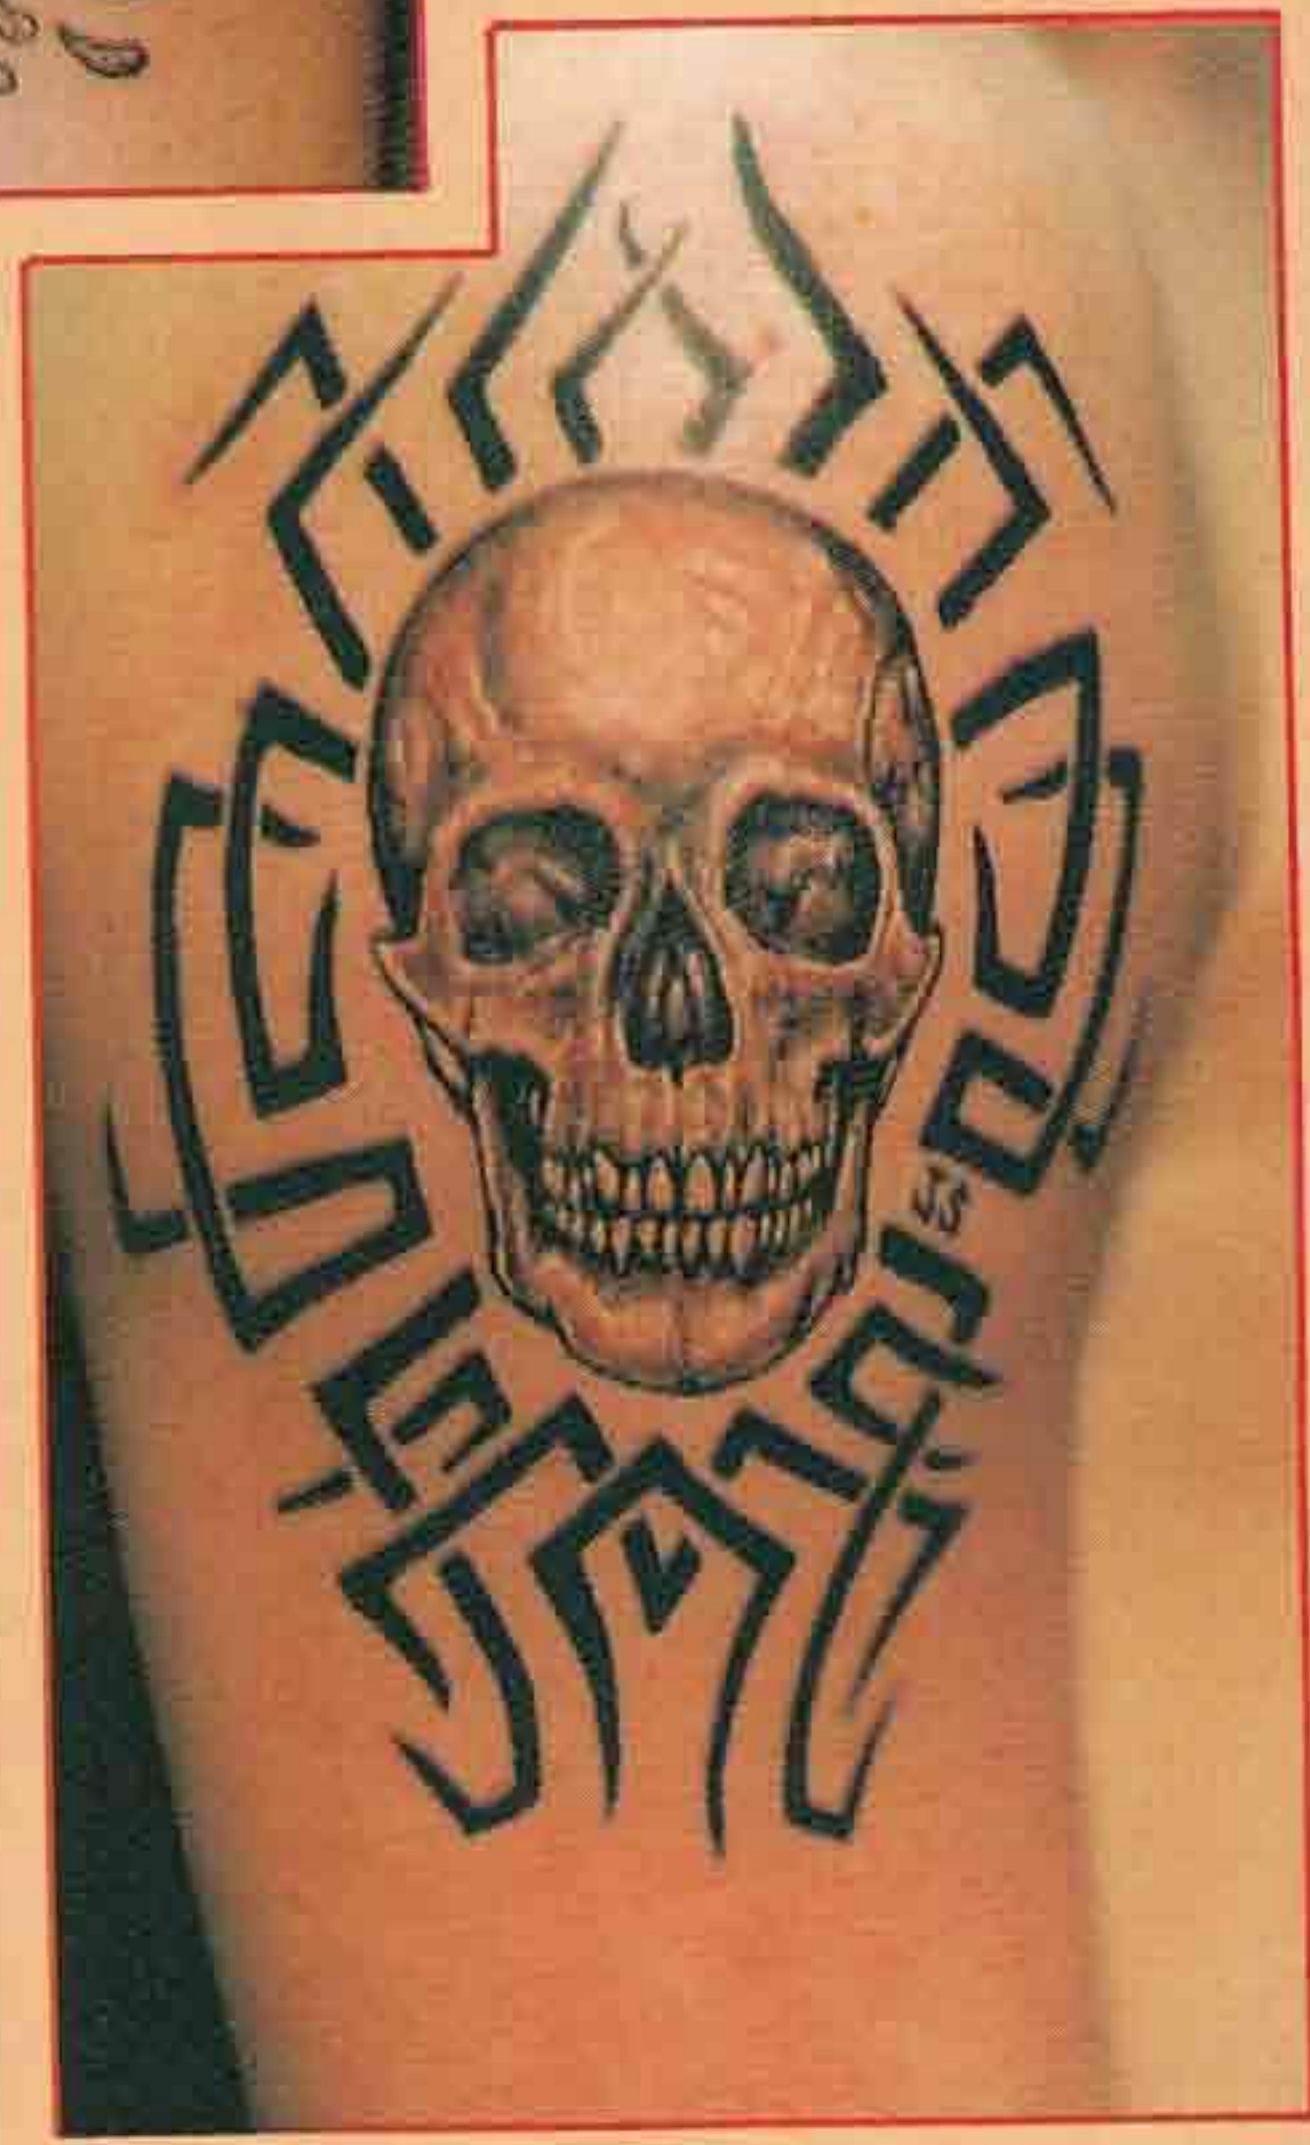

Tasteful, eclectic and fresh, Jonathan Shaw's work is in a class by itself.

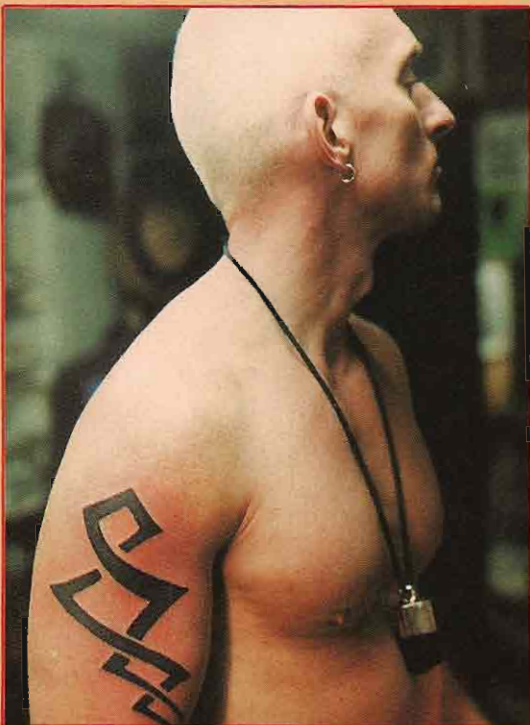

APPRENTICED WITH: "Mainly with Col. William Todd and Tony Morra in Long Beach and Hollywood, California and my Uncle Bob Shaw in Houston, Texas, but I've tried to learn something from just about everybody that I respect in tattooing."

ALSO WORKED AT: Shops in Hollywood, Laguna Beach and Long Beach, California, Rio De Janeiro and Sao Paulo, Brazil, Belixe, Central America, New York City, Houston, Texas, New Orleans, Louisiana, Amsterdam and Paris. Jonathan has also worked at most of the major tattoo conventions since 1981.

YEARS TATTOOING: Professionally since 1976

CLUBS: Co-founder of the Pirate Tattoo Association, and member of tattoo clubs in Brazil, Holland and Europe.

AWARDS WON: Jonathan has won numerous awards internationally. Recently he took first place for Best Tribal Piece and Best Tattooed Female and second place for Best Cover-up at the New Orleans Tattoo Expo '90. He also won the Best All Around Tattooist award at the Kansas City Tattoo Rendezvous '90.

APPOINTMENT NECESSARY?: "Yes, always! But I try to see people as soon as I can from the time they contact me."

ANYTHING ELSE TO ADD?: "If you're thinking about getting a tattoo remember that each artist has his range of style. Find one who is good for the kind of work you want and then let them do their thing. If you don't trust the artist to do the job right then you shouldn't be sitting in that chair. So chill out, relax and be respectful of your artist and his work. You'll be glad you did!"

And a word to the wise: Beware of amateurs! There is little margin for error and lack of experience in tattooing. Be intelligent about who you let tattoo you. Save up if you have to and go to a professional whose work you admire."
